

RELIEF.

Skincare solutions centered around your health.

True healing starts with relief, and at SkinCentry™, we believe that providing a viable treatment is an essential part of protecting your skin's health.

Designed to treat and soothe the most common superficial fungal infections—including **athlete's foot, jock itch and ringworm**—this hospital-grade formula provides a powerful, clinically proven solution that not only cures but also comforts. Formulated with the FDA-approved active ingredient, Miconazole Nitrate, SkinCentry Antifungal Powder **targets infections at their source while absorbing moisture, creating a dry environment that prevents further irritation.**

Free from parabens and talc, **this powder is gentle yet effective, offering relief from itching, burning, and irritation while supporting the skin's natural healing process.** SkinCentry Antifungal Powder meets the highest standards for safety and efficacy, making it a trusted solution for healthcare professionals and families alike.
